Objective

Dedicated Frontend Developer with above 2 years of experience in the banking industry. Proficient in React, JavaScript, HTML, CSS, and responsive web design. Seeking a frontend developer role to leverage my expertise in programming languages, frameworks, and software development within innovative companies.

Work Experience

Front-end Developer

2022–present, Abank (HO – ICT Department)

- Collaborated on admin portal user interface development using C#, .Net Core MVC framework, jQuery, and Bootstrap.
- Contributed to the development of Aplus Wallet Reporting and Accounting admin portal using React, TypeScript, and MUI.
- Maintain existing Aplus Merchant portal, including fixing bugs and develop new custom components to meet project requirements
- Developed Payment SDK using Nextjs, Redux, jest unit test and tailwind css.
- Ensured seamless integration of frontend components with the backend.
- Engaged in agile development methodologies and coordinated with cross-functional teams to deliver high-quality software.

Application Support

2020-2021, Abank (HO – ICT Department)

- Developed stored procedures using Oracle SQL to enhance database functionality.
- Created Core Banking Reports using the iReport Tool.
- Provided backend and frontend end-of-day (EOD) support to ensure system stability.
- Conducted Core Banking Software Testing and Training for new features and enhancements.

Education

Bachelor of Computer Science - University of Computer Studies, Yangon

2014-2018
